

A POWERFUL ECOSYSTEM OF EXCHANGE, BLOCKCHAIN, WEB3 & PAYMENT SYSTEM

INTRODUCTION

In the vanguard of digital finance innovation, BlockEx introduces a comprehensive and advanced ecosystem designed to revolutionize blockchain technology, cryptocurrency exchanges, Web3 integration, and seamless payment gateways. Our platform stands as a beacon of technological advancement, meticulously engineered to support a wide array of decentralized applications and utilities.

At the core of BlockEx is our state-of-the-art blockchain infrastructure. Engineered for scalability, security, and efficiency, our blockchain facilitates transparent and immutable transactions, ensuring trust and integrity across the network. This robust foundation enables diverse applications, from decentralized finance (DeFi) solutions to smart contracts and digital identity management, fostering a secure and reliable digital environment.

BlockEx's cryptocurrency exchange is a cornerstone of our ecosystem, providing a secure, high-performance trading platform equipped with advanced features. Our exchange supports a wide variety of digital assets, offering high liquidity and sophisticated trading tools. With rigorous security protocols and a user-friendly interface, BlockEx ensures a seamless trading experience for both novice and professional traders.

INTRODUCTION

Embracing the future of the internet, BlockEx integrates Web3 technologies to create a decentralized and user-centric digital landscape. Our platform empowers users with greater control over their data and digital assets, promoting transparency and reducing reliance on centralized entities. Through Web3 integration, BlockEx enhances interoperability and fosters innovation within the decentralized web.

Our seamless payment gateway bridges the gap between traditional finance and the burgeoning world of cryptocurrencies. Designed for speed, security, and ease of use, our payment system enables instant transactions and cross-border remittances, eliminating the inefficiencies and barriers of conventional payment networks. This system ensures that users can effortlessly manage and transfer their digital assets with unparalleled convenience.

Beyond these core components, BlockEx offers a suite of utilities and services tailored to meet the evolving needs of the digital economy. From decentralized applications (dApps) to innovative financial products, our ecosystem is designed to support and drive the next generation of digital financial solutions.

BlockEx is committed to pushing the boundaries of what is possible in the digital finance realm. Our dedication to technological excellence and user-centric design positions us as a leader in the cryptocurrency space. Join us as we build the future of digital finance, fostering a vibrant, secure, and inclusive digital ecosystem with BlockEx.

VISION

Empowering transactions across borders with crypto freedom.

Mission

Empowering individuals and businesses globally, our payment-focused cryptocurrency aims to revolutionize transactions with seamless efficiency, security, and accessibility, driving financial empowerment and innovation.

ABOUT US

BlockEx is at the forefront of the digital finance revolution, dedicated to building a comprehensive ecosystem that leverages the power of blockchain technology, a cutting-edge cryptocurrency exchange, seamless Web3 integration, and efficient payment transfer solutions. Our mission is to create an inclusive, transparent, and efficient financial system that empowers individuals, businesses, and developers worldwide.

At BlockEx, we prioritize innovation and security, offering a robust blockchain infrastructure designed to support a wide range of decentralized applications and real-world asset tokenization. Our state-of-the-art exchange platform provides high liquidity, advanced trading tools, and rigorous security protocols, ensuring a superior trading experience for all users.

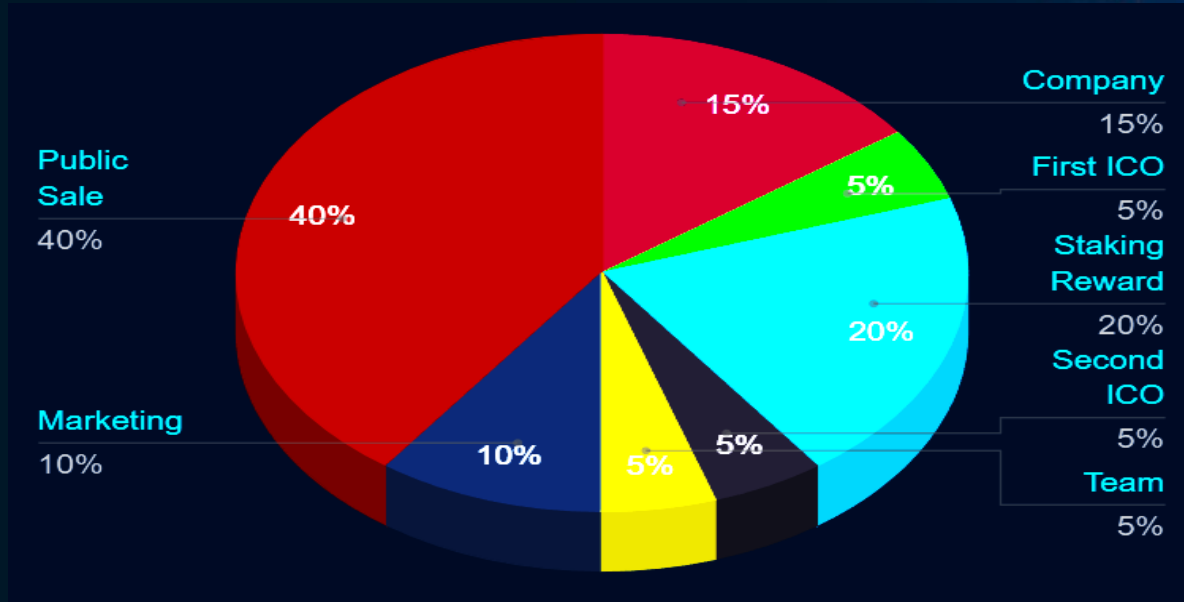

Our seamless integration with Web3 technologies fosters a decentralized internet, giving users greater control over their data and digital assets. Additionally, our intuitive payment gateway bridges the gap between traditional finance and the crypto world, enabling instant, secure, and cost-effective transactions across borders.

Driven by a vision to empower the future of digital finance, BlockEx is committed to pioneering advancements that bring the benefits of blockchain technology to everyday life, enhancing financial inclusion, and promoting sustainable economic growth. Join us as we lead the charge towards a more transparent and decentralized financial future.

Join us on this exciting journey as we redefine the way the world transacts, one block at a time. Welcome to BlockEX.

TOKENOMICS

The tokenomics of BlockEX (XBE) are designed to ensure the sustainability, growth, and decentralization of the ecosystem. Key aspects of the tokenomics include:

Total Supply: 100 Million (XBE)

TOKENOMICS (XBE)

Total Supply: 100 Million (XBE)

Category	Allocation (%)	Amount (Million)
1st ICO	5%	5
2nd ICO	5%	5
Staking Rewards	20%	20
Team	5%	5
Marketing	10%	10
Public Sale	40%	40
Company	15%	15
Total	100%	100

INITIAL COIN OFFERING (ICO)

We are excited to announce the Initial Coin Offering (ICO) for BlockEX (XBE), our innovative layer 2 PoS blockchain project. The ICO will be conducted in two phases, offering early investors an opportunity to join us at preferential rates before we go public.

Phase 1: Early Bird Investment

Price: 1 XBE = \$0.30 USD

Availability: Limited to the first 5 million XBE coins

Duration: 60 days

During Phase 1, early investors can purchase XBE coins at a discounted rate of \$0.30 USD per token. This phase is designed to reward early adopters and provide the initial capital needed to kickstart our project development and marketing efforts.

Phase 2: Pre-Public Launch

Price: 1 XBE = \$0.50 USD

Availability: Limited to the next 5 million XBE coins

Duration: 60 days or until coins are sold out

Phase 2 offers XBE coins at \$0.50 USD per token, still at a significant discount compared to the public launch price. This phase aims to attract a broader range of investors and further secure the necessary funding for our ambitious roadmap.

Public Launch

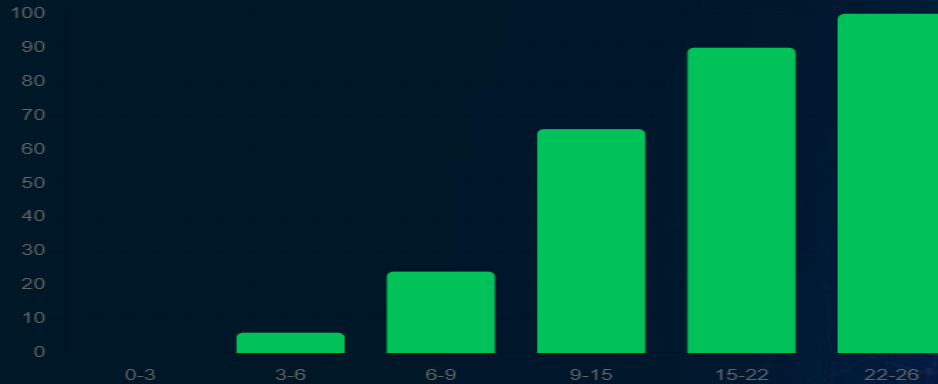

Price: 1 XBE = \$1.00 USD

Date: Immediately following the completion of Phase 2

After the ICO phases, XBE coins will be available to the public at a price of \$1.00 USD per token. This reflects the value of our advanced blockchain technology, diverse application ecosystem, and the unique benefits our platform offers to users and investors.

Join us in revolutionizing the blockchain and cryptocurrency landscape. Invest in BlockEX during our ICO and be part of the future of decentralized finance and digital entertainment.

ECOSYSTEM

DigitHold Centralized Exchange (CEX)

DigitHold Centralized Exchange (CEX) offers users a comprehensive trading platform for spot and futures trading with fast, safe, and low-fee transactions. Whether buying, selling, or engaging in peer-to-peer (P2P) trading, our exchange provides a secure environment for managing your cryptocurrency portfolio. With advanced security measures and a user-friendly interface, DigitHold CEX ensures the safety of your assets while enabling efficient trading. Whether you're a day trader or a long-term investor, DigitHold CEX caters to your trading needs, supporting the growth and prosperity of your crypto portfolio.

ECOSYSTEM

DigitHold MasterCard

Introducing DigitHold Mastercard, the ultimate solution for seamless cryptocurrency transactions. Linked directly to your DigitHold Centralized Exchange (CEX) account, the DigitHold Mastercard allows users to instantly access their CEX wallet funds and withdraw crypto smoothly and effortlessly. With real-time crypto-to-fiat conversion, users can make worldwide fiat payments and withdraw funds from any ATM, making it convenient for everyday transactions. Experience the freedom of managing your digital assets with ease while enjoying the benefits of global accessibility and liquidity with DigitHold Mastercard.

ECOSYSTEM

DigitHold CryptoCard

Introducing the DigitHold Crypto Card, the world's first crypto card designed for seamless and trustworthy payments. With the DigitHold Crypto Card, users can make payments directly to vendors without the need for fiat currency, ensuring a convenient and hassle-free transaction experience. Vendors have their own crypto machines to process payments in any country, enabling users to spend their DigitHold CEX wallet funds for their day-to-day and online purchases. Say goodbye to the complexities of traditional payment methods and embrace the future of finance with the DigitHold Crypto Card.

ECOSYSTEM

DigitHold Decentralized Exchange (DEX)

DigitHold Decentralized Exchange (DEX) revolutionizes cryptocurrency trading by offering users a fast, secure, and efficient platform for exchanging digital assets. With low fees and no registration or KYC requirements, users can trade with privacy and ease. Our decentralized exchange ensures the security of your funds while providing a seamless trading experience. Whether you're a seasoned trader or new to crypto, DigitHold DEX empowers you to exchange your assets effortlessly, supporting the growth and decentralization of the blockchain ecosystem.

ECOSYSTEM

DigitHold Wallet

DigitHold Wallet is a mobile app and web extension designed for sending and receiving funds seamlessly. Supporting all EVM-based networks, it offers users a versatile and comprehensive solution for managing their digital assets. Our wallet is fully decentralized, ensuring high security and privacy. It is also fast and free to use, providing an efficient and user-friendly experience for managing your cryptocurrency. Whether you're storing, sending, or receiving funds, DigitHold Wallet is your secure and reliable partner in the world of digital finance.

ECOSYSTEM

BlockEX Staking App

The BlockEX Staking App allows users to stake their XBE coins and earn rewards. By participating in the staking process, users contribute to the network's security and efficiency while enjoying regular staking rewards. The app offers a user-friendly interface, making it easy to stake coins and track earnings. With BlockEX's secure and efficient staking system, users can grow their crypto holdings and support the ecosystem's stability and growth.

ECOSYSTEM

Flickfy

Flickfy is a mobile, TV, and web application that allows users to subscribe using our XBE coin to access a vast library of movies, TV series, and live matches. Offering affordable pricing, Flickfy aims to provide high-quality entertainment options for everyone. By integrating our cryptocurrency, we ensure a seamless and cost-effective subscription process, making it easier for users to enjoy their favorite content. Whether you're on the go, watching on your TV, or browsing the web, Flickfy delivers a diverse range of entertainment at your fingertips.
